

# Stop-Loss Powered by Smart Technology

Applying smart  
technology to every facet  
of the healthcare industry

We partner directly with stop-loss  
carriers and provide detailed  
reporting through our proprietary  
secure platform.

## Key Features

- Using smart technology to drive decision making in the self-insured quoting process
- Dynamic analytics providing insights and cost saving recommendations
- Access to quotes from dozens of stop-loss vendors through our proprietary secure platform
- Transparency in all we do including analytics, reporting, and pricing
- Optional member advocacy and concierge services
- Our in-house Implementation team can handle contracts and plan set-up
